## BENCH GRINDER

**NO USER SHALL REQUIRE OR PERMIT ANY PERSON TO OPERATE OR USE A GRINDER IF:**

- Grinding wheels are damaged or which is not properly dressed.
- Grinding wheels are not well protected by side covers.
- Grinder is not provided with substantial, adjustable work rest which shall be securely fixed in position and adjusted to within 3mm from the grinding surface of the wheel.
- Grinder is not provided with a transparent unbreakable shield which shall be kept so adjusted as to protect the operator's eyes.
- Safety goggles are not available and used.
- User is not trained to use such a machine (unauthorised persons).
- Under the influence of alcohol or drugs

Bench Grinder

700 x 500 mm

## BATTERY CHARGERS

**NO USER SHALL REQUIRE OR PERMIT ANY PERSON TO USE A BATTERY CHARGER IF:**

- User is provided with a full face protected shield.
- User is provided with acid resistant gloves.
- Safety precautions are taken:
  - Before disconnecting charger clamps from battery, power supply to charger must be switched off.
  - No smoking or open flames near battery.
  - Electrolyte caps must be screwed on before disconnecting cable clamps..
- No Unauthorised persons are allowed to use battery chargers.
- Batteries are charged in ventilated areas.
- Allow battery to cool off for 5 min. after charging before disconnecting.
- Under the influence of alcohol or drugs

Battery Chargers

700 x 500 mm

## OFF LOADING OF TRAILERS

**NO USER SHALL REQUIRE OR PERMIT ANY UNAUTHORISED PERSON TO LOAD / OFF-LOAD TRAILERS.**

- Only one trained person to open trailer.
- Never stand in front of gate while opening - always from alongside gate.
- People that off load trailer must wear dust masks and dust glasses.
- Sweep bottom of trailer before proper closing of gates.
- No open flames or smoking.

Off Loading of Trailers

700 x 500 mm

## PORTABLE ACETYLENE GAS CONTAINER

**NO USER SHALL REQUIRE OR PERMIT ANY PERSON TO USE ACETYLENE GAS CONTAINERS IF:**

- Gauges are damaged or faulty.
- Any leaks of gas is occurring.
- Bottles are not vertical in position.
- Bottles are not securely chained to trolley.
- No open flames or extreme heat allowed near bottles.
- Unauthorised persons not fully trained are not allowed to use bottles.
- Empty or full bottles must be separate at all times and kept safe and chained way.
- Safety glasses must be worn during welding or flame cutting.
- No person must tamper with any part of acetylene bottle or accessories.
- Acetylene pipe must be free of any defects or cracks (not perished).
- No user of gas equipment shall permit welding or flame cutting where the objects may ignite, explode or react to form dangerous or poisonous substances.

Acetylene Gas Container

700 x 500 mm

## BOILER

- Trained personnel only.
- Wear protective clothing - shoes, gloves, apron and face mask.
- always work with supplied tools.
- Remove warm ash to designated area.

Boiler

600 x 300 mm

## LOCK-OUT PROCEDURE

- Register must be completed at office.
- "DO NOT OPERATE" must be hung at distribution box.
- Lock power off and keep key with person in charge of work.
- When finished, switch power back on and remove "DO NOT OPERATE" board.
- Report back to manager and complete register.

Lock-Out Procedure

600 x 245 mm

FM 8

## EMPTYING OF SILO BIN

- On order given by person in charge.
- After every 20 minutes people must rest for 5 minutes.
- Wear dust mask.
- Ensure lighting is safe / adequate.
- No smoking or open flames inside silo.
- AUGER HAS BEEN MADE SAFE BUT BEWARE OF MOVING PARTS.**

Emptying of Silo Bin

600 x 350 mm

## MILLING

- Wear dust mask.
- Beware of moving machinery,
- no smoking or open flames.
- Ensure hygiene quality of food stuff.

Milling

600 x 300 mm

### EMERGENCY PLAN

- In case of fire, earthquake or any natural disaster:*
1. Everyone should gather in front of the pack house.
  2. Everybody should stay calm until further instructions by management.
  3. In case of fire the fire fighting team or management should extinguish fire.
  4. The first aid team must take the first aid kit and assist any injured persons at the emergency assembly point.
  5. In case of serious injuries management should contact professional medical aid immediately.
  6. If any persons are trapped under rubble the rest of the personnel should still move to the emergency assembly point.

Taking into account the requirements of the Occupational Health and Safety Act and the important contribution this aspect makes in effective operation in the health and safety Management system employees must keep in mind that:  
Every employee has a legal and moral responsibility to accept responsibility for activities or the absence of obvious unsafe practices, as applicable on themselves and other parties or persons.  
In your working environment, every unsafe or unhealthy situation is to be reported to the relevant Manager and H&S Representative(s) as soon as possible.  
In case of an unsafe or unhealthy situation identified in a working environment, the relevant manager must be informed as soon as possible.

Emergency Plan

600 x 400mm

## FM 10

### SAFETY WORK PROCEDURES OXYGEN - ACETYLENE CUTTING EQUIPMENT

**BEFORE USING A CUTTING TORCH THE FOLLOWING SAFETY STEPS MUST BE FOLLOWED:**

#### PERSONAL PROTECTION:

1. An overall must be worn at all times.
2. Safety cutting goggles must be worn.
3. Safety shoes must be worn.
4. Remove all waste material at workplace.

#### EQUIPMENT

1. Transport cylinders only in standard trolleys. Cylinders must not be bumped or rolled.
2. Check for leaks with water / soap solution. No grease.
3. Check the condition of the regulators. No dirt should be on any connection parts.
4. Do not use any regulator that was tampered with.
5. Do not pull the workpiece on defective trestles.
6. Check the flashback arrestor.
7. Use the cutting equipment safety and take care of the equipment.
8. All cutting sets must be fitted with flashback arrestors. (Close acetylene first).

#### FIRST RISK

1. Use a torch lighter at all times. never use matches, cigarettes or an arc welder.
2. A fire extinguisher must be on the cylinder trolley at all times.
3. Never use old oil drums to stand cylinders in.
4. always make sure the fire extinguisher is in a good working condition.
5. Always work in a well ventilated area.
6. Never inhale oxygen from the oxygen cylinder.
7. Never use oxygen cylinder for ventilation.

### SAFETY WORK PROCEDURES GRINDING

**BEFORE GRINDING IS TO BE PERFORMED WITH A HAND HELD GRINDER, THE FOLLOWING CHECKS SHOULD BE DONE:**

1. Ensure that the extension lead is in a good condition.
2. Ensure that the plug and cord of the grinder is safe and in a good condition.
3. Make sure the grinder is in a safe working condition.
4. Make sure that the grinding disc is tightened properly.
5. Never use a chipped disc and make sure to use the right disc for the right application:  
- Steel disc for steel only  
- Masonry disc for stone and cement only.  
- Stainless steel disk for stainless steel only.
6. Make sure that the protection guard is on the machine and tightened correctly.
7. Never wear loose or torn protective clothing.
8. Always wear protective clothes.
9. Always wear safety glasses.
10. Always switch the grinder off before putting it down
11. Never lay grinder down on its blade.  
Never lay it down on the ground - use a plank to put it on.
12. Never grind in such a way to harm fellow workers.
13. Make sure that no electrical cable lies in water and never stand in water while grinding.

### SAFETY WORK PROCEDURES ARC WELDING EQUIPMENT

**BEFORE ARC WELDING EQUIPMENT IS USED, THE FOLLOWING SAFETY STEPS MUST BE FOLLOWED:**

#### PERSONAL PROTECTION:

1. An overall must be worn at all times.
2. Spats must be worn.
3. Safety shoes must be worn.
4. Elbow length leather gloves must be worn.
5. Never tack weld or weld without a welding helmet.

#### EQUIPMENT:

**CHECK IF FITTED WITH A LOW VOLTAGE COIL NB!!!**

1. Check if welding machine is in a safe working condition. No open electrical wiring - hot connection.
2. Check welding cables for faults.
3. Check the electrode holder and the earth clamp.
4. Always work in a well ventilated area.
5. Check type of material to be welded.
6. Select correct current and electrodes.
7. Make sure of screens to protect fellow workers.
8. Never strand in water or let cables lie in water while welding.
9. When removing scale always use safety goggles.
